mtouseef897@gmail.com  
<https://mtouseef897.netlify.app/>  
Islamabad, Pakistan

As a passionate and skilled Front-End Web Developer, I bring both dedication and expertise to the table. With a solid academic background, I'm constantly eager to dive into the latest web development technologies. Seeking opportunities to apply my expertise in dynamic projects that redefine digital boundaries and contribute to pioneering advancements in the field.

## WORK EXPERIENCE

### Freelancer

2021 - Present

As a dedicated freelance Front-End Web Developer, I've honed my skills in HTML5, CSS3, Bootstrap, Tailwind, Sass, JavaScript ES6, ReactJS, TypeScript, and NextJS as well as Wordpress among others. I specialize in crafting visually appealing and user-friendly websites and web apps from custom Figma/PSD designs. My focus on responsiveness and SEO ensures optimal performance. Delivered top-tier services to clients worldwide.

### Junior Research Officer

2020 - 2024

As a Junior Research Officer at Air University's R&D Center, I contributed to designing communication software for embedded devices. This role enhanced my teamwork, project management, presentation, and communication skills. I learned to meet deadlines effectively while ensuring project quality, equipping me for success in software development and beyond.

## PROJECTS

### Slidelya

<https://www.slidelya.com/>

Designed a website for digital agency which provides services of presentation designing. The website also contains an order page to receive customer orders and payment gateway integration along with email setup to receive order information. The major technologies used includes **ReactJS**, **Stripe API**, **Email JS API**, **Tailwind**, **Bootstrap** etc.

### Teaser Website for Game

<https://kanoidev.site/>

Crafted immersive React web app for Game Teaser Website. Dynamic white paper scrolls unveil game narrative, adorned with sleek animations, video backgrounds, and seamless transitions. Responsive design powered by **Next JS**, **Tailwind CSS**, and **Framer Motion**.

### Resume Builder

<https://demo-cvbuilder.netlify.app/>

Designed React Web App for effortless CV creation. Edit pre-designed templates, download in PDF/PNG. Admin features for template uploads. Responsive Design based upon Front-end technologies including **React JS**, **Tailwind CSS**, **Firebase for authentication, storage, and database**, plus **React-Query** and **React-Toastify** for seamless user experience
